

C++

```
#include<iostream>
using namespace std;
int main() {
cout << "assalamualaikum" << endl;
cout << "my name is afifa shakeel" << endl;
cout << "I'm a BBIT student from pakistan
currently exploring the world of
programming" << endl;
cout << "I'm learning c++ and working on
small projects to strengthen my logical and
coding skills" << endl;
cout << "I'm passionate about technology
and eager to grow as a software developer"
<< endl;
    return 0;
}
```
